ABOUT RESPL

Real Enviro Solutions Private Limited (RESPL) is a professional environmental consulting firm delivering end-to-end compliance and sustainability solutions to industries across India.

We specialize in helping organizations navigate complex environmental regulations while driving responsible and sustainable growth. Our approach combines technical expertise, regulatory knowledge, and practical execution to ensure seamless compliance and long-term environmental performance.

We follow simple and structured compliance processes, deliver industry-specific customized solutions, and provide end-to-end support with clear and reliable communication. We take care of your compliance responsibilities, so you can stay focused on running your business with complete peace of mind.

OUR CORE VALUES

TECHNICAL EXCELLENCE

Delivering precise, compliant, and result-oriented solutions backed by deep regulatory knowledge.

INNOVATION & FORESIGHT

Future-ready solutions including ESG, GHG accounting, and global compliance frameworks like CBAM.

CLIENT-CENTRIC APPROACH

Customized strategies aligned with each industry's operational and compliance needs.

WHY CHOOSE US ?

Seamless Compliance & Guaranteed Approvals

Continuous regulatory updates even after project completion

Customized solutions for different industry sectors

Audit-ready documentation & compliance systems

Mentored environmental solutions Integrating all regulatory departments and compliance requirements under a unified framework.

Structured, Timely & Accurate Execution

95%+ client retention ratio

Single-point solution for all environmental & sustainability needs

Strong network of PwPs & PIBOs across India

One **Earth**
One Responsibility

Commitment to environmentally responsible practices

EPR REGISTRATION & COMPLIANCE

✓ End-to-end support for registration, target fulfillment, credit procurement, and annual return filing.

EBWGR REGISTRATION & COMPLIANCE (SWM RULES 2026)

Bulk Waste Generator registration

01

Waste segregation & on-site processing guidance

02

Vendor coordination for OWC / composting systems

03

Digital reporting & compliance management

04

✓ End-to-end support through verified technology partners & vendors

ESG & SUSTAINABILITY SERVICES

GHG INVENTORY & CARBON FOOTPRINTING

Measure and analyze greenhouse gas emissions to identify key emission sources.

BRSR & GLOBAL REPORTING SUPPORT

Support BRSR and global disclosures with accurate and compliant reporting.

CARBON REDUCTION & OFFSET PLANNING

Develop strategies to reduce emissions and implement credible offset solutions.
